Well organized: tool bucket organizer for tool transport

Better organization in the bucket

With its 16 pockets (9 inside, 7 outside), the tool bucket organizer made of robust textile material with a strong resistance to cuts and punctures turns buckets into a tidy, well-organized transport option. Simply place it over the edge of a bucket and the tools can be stored neatly.

2 surfaces with hook-and-loop tape

The tool bucket organizer has 2 hook-and-loop attachment areas, outside: ca. 120 mm x 170 mm; inside: 65 mm x 130 mm (width x height), which allows for attachment of, for example, the textile pouches and boxes of the Wera 2go tool sets, which have a fleece zone at the back.

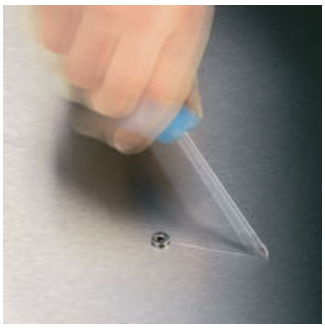
Wera Chiseldriver

The Wera chiseldriver for screwdriving, chiseling, mortising and slackening stuck screws. With multi-component Kraftform handle for fast and smooth work.

Kraftform Screwdrivers Series 300

Kraftform Plus screwdrivers - ergonomics you can grasp. They relieve the entire hand-arm system even when used intensively. Along with other technical and product advantages such as the Lasertip for a secure fit in the screw head, Kraftform screwdrivers are the ideal choice whenever manual screwdriving jobs are concerned.

Lasertip prevents slipping out



A precisely-focused laser creates a sharp-edged surface structure. Wera Lasertip "bites" itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

Screwdriver 160 i

Our screwdrivers are tested for dielectric strength under a 10,000 volt load to make sure that their most important property, their insulation, has been exhaustively tested. Each individual Wera VDE screwdriver is subjected to this test to guarantee safe working up to 1,000 volts.

Take it easy Tool Finder

Screwdrivers with Take it easy tool finder: colour coding according to profile and size stamp.
