GENERAL SPECIFICATIONS

Suction/Filter unit FILTRATEC-F Kit F for solder fumes and solvents.

FILTRATEC F suits to every use into electronic assembly.

The air curtain cabinet directly sits on a workbench surface. Strong iron manufaturing with an epoxy paint coating to avoid any corrosion risk.
For a better view, the cabinet has transparent openings on each side and includes in-line a removable front glass screen.
Range is conceived to filter fumes, solvents, acids...

An extraction pipe of diameter 75 mm allows easily connecting the cabinet to the filter units FILTRATEC.

Each unit includes an built-in filter HEPA + Neutrafil, 2 speeds, a strong and very silent turbine (<52 dbA). An on/off remote control without wire is available as an option for the 2 types.

Extraction / Filtration unit for solder fumes and solvents
Very efficiency, micro filter (HEPA) better than 99,98%
Very silent model, lower than 52 dbA
Powerful turbine 255 M3/h

Technical Characteristics

Powerful turbine	255 M3/h
ON / OFF remote control	Yes, as standard
Exhaust pipes available	2
Mircro filter Efficiency (HEPA)	better than 99.98%
Efficiency gas filter (Neutrafil)	better than 95%
Aspiration speeds	2
Recommended for solder fumes	Yes
Recommended for vapor acids	No
Recommended for solvents	Yes
Noise level at 1 meter	lower than 52 dbA
External dimensions L x D x H	307 x 307 x 410 mm
Net weight	10 kg
Power	140 W
Electrical suply	230 V - 50/60 Hz

CAB 8050

Internal dimensions LxDxH :	795 x 450 x 460 mm
External dimensions without exhaust pipe LxDxH :	800 x 460 x 462 mm
External dimensions with exhaust pipe LxDxH :	800 x 460 x 504 mm
Net weight :	12 kg
