Product overview: Fluke C1777 Hard Case

The Fluke C1777 is a hard transport case with rollers allowing safe and secure transport of the Fluke 1770 series power analyzers including the 1773, 1775 and 1777 models. The case lid contains a zipper power to store items like documentation. Not including the molded storage compartment to tightly hold the instrument there are two additional storage compartments to support the meter accessories. The case does have a handle, but also includes and separate handle that can be extended to support use of the two rollers for easy transport.
