CRC Industries is a worldwide supplier of chemical products for the industry, automotive and electro segments. The company consists of four operating groups headquartered in the United States, Belgium, the United Kingdom and Australia. CRC Industries Europe is ISO 9001 certified.

We manufacture and supply cleaners, lubricants, anti-corrosion products, adhesives, welding products, additives, moulding products and other specialty products...all for the European, African and Middle East areas.

We guarantee high quality products by following strict guidelines in all facets of research, development and production. We try to meet today's most stringent environmental and safety standards. Furthermore CRC develops new products and continues to adapt existing products to meet the needs of our customers.

For detailed product information, Technical Data and Material Safety Data, please consult our website:

www.crcind.com

“SEE FOR YOURSELF THAT CRC IS THE BEST SOLUTION!”

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend our products to be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

Note: The CRC product range is country-related. It is possible that some products, listed in the catalogue, might not be available. Product pictures not binding. Actual product may be different from picture due to change-over to new design.

MY CRC

AUTOMATIC MSDS UPDATES

A service offered to CRC end-users and distributors as a means to automate the task of updating Technical Data Sheets (TDS) and Material Safety Data Sheets (MSDS), reducing the burden on staff having to remember, schedule, and undertake this HSE requirement.

By using My CRC, the end-user can ensure 100% compliance, automatically when there is a change to the datasheets, whether due to legislative changes such as hazard classifications or amendments to European law. These changes do not affect the product performance or availability, but in a highly regulated industry - up to date compliance is essential to avoid prosecution. The ongoing REACH legislation will affect all processors, distributors, and users of chemicals throughout Europe, however, many people are unaware of what this means. Using My CRC ensures that such changes will be incorporated into the MSDS and TDS, with updates sent automatically.

Offered through the CRC website (www.crcind.com) a simple registration process provides access to the complete CRC product range where selection of relevant products takes place - receive only relevant products updates.

The system remembers the selection, and will automatically generate an email notification when a significant change occurs to either the TDS or MSDS, keeping relevant management and user personnel up-to-date.

A unique service, making compliance easy!

- 24/7 availability on-line.
- Removes the potential to 'forget' to check for updates.
- Saves time & easy to use.
- Legislation changes frequently, do you always know when it has? Receive updates automatically in your mailbox.
- All information held securely.

MY CRC - DIRECTIONS

1. Navigate to www.crcind.com/crc.
2. Click on the My CRC logo.
3. Select the link "New User".
4. Fill in company details.
5. The unique log-in ID and password will be emailed to you.
6. Enter the log-in ID and password on My CRC.
7. Once logged in, select the country from the drop-down list at the top of the page.
The complete list of CRC products will now be displayed - using the selection boxes on the right, both MSDS and TDS updates can be selected.
8. Please confirm your selection, My CRC instantly updates which boxes have been selected.
9. Once all products of interest have been selected, simply close your internet browser - the process is now finished.
10. If product selection needs to be modified, simply log-in to My CRC and change the update options (click on the My CRC logo to update email preferences).

EXPLANATION

Food products approved by the NSF organisation

Environmentally friendly products

Food processing safe products

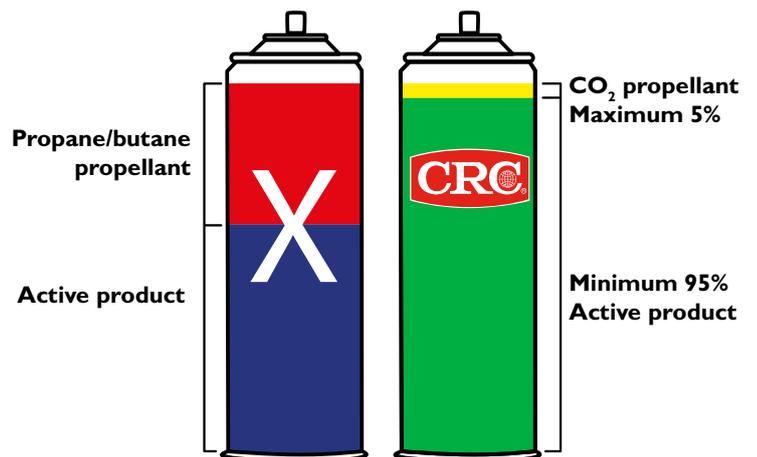

Products with a high level of biodegradability according to the OECD standard 301B

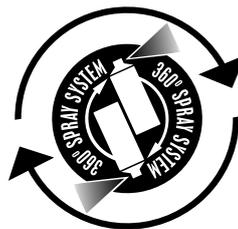

MORE PRODUCT, LESS PROPELLANT

We respect the environment and if it's technically possible, we fill the majority of our aerosols with CO₂. Besides the environmental aspect, this ensures you have \pm 35% more product.

CLEANERS - PRECISION

CRC DUST FREE

High pressure dust remover:

Efficient high pressure liquid gas blend that removes dust and cleans with a powerful jet of dry inert gas. It prevents errors, downtime and damage caused by microscopic dust. Leaves no residue or condensation. Designed for use as a cleaner for electrical or electronic equipment in food processing or non-processing areas.

CRC Ref.	SIZE	SNCF	RATP
32705	Aerosol 250 ml	N/A	N/A
32315	Aerosol 400 gr	72100117	N/A

CLEANERS - HEAVY-DUTY

CRC FAST DRY DEGREASER

Fast drying solvent cleaner for heavy contaminants on mechanical parts, suitable for most plastics.

A very fast drying cleaner with a low flash point, which dissolves grease, oil, lubricants and removes contaminants attached to the surface. Designed for applications where flammable solvents can be used. Test before application on sensitive plastics (e.g. EPS, XPS, ABS) or whenever stress cracking of the plastics can be a problem. When using on large surfaces, ensure adequate ventilation.

CRC Ref.	SIZE	SNCF	RATP
10227	Aerosol 500 ml	72100113	1502108
10230	Bulk 5 L	N/A	
10233	Bulk 20 L	N/A	
31927	Bulk 200 L	N/A	

CRC INDUSTRIAL DEGREASER

Solvent cleaner for heavy contaminants on mechanical parts.

Powerful, fast evaporating cleaner with a flash point of 25°C. Removes greases, oil, lubricants, non-cured adhesives and dirt from equipment, machines and metal parts. When applying to large surfaces or in dip baths, ensure explosion prevention. Test on plastics before use.

CRC Ref.	SIZE	SNCF	RATP
10321	Aerosol 500 ml	72100162	N/A
10325	Bulk 5 L	N/A	N/A
10326	Bulk 20 L	N/A	N/A

CRC LECTRA CLEAN II

Solvent cleaner with high flashpoint for heavy contaminants on mechanical parts.

Heavy-duty cleaner with a high flashpoint of over 60°C for improved application safety. The extended drying time allows the product to act during a longer period and to dissolve heavy contaminations. Suitable for use in dip baths and ultrasonic dip tanks.

CRC Ref.	SIZE	SNCF	RATP
30449	Aerosol 500 ml	0210045	72100338
10314	Bulk 5 L	N/A	N/A
10315	Bulk 20 L	0210045	N/A
30450	Bulk 200 L	N/A	N/A

CRC GRAFFITI REMOVER

Removes all traces of paint and ink.

Dissolves and loosens unwanted paint and inks from aerosols, pens and markers. Safe to be used on most substrates. In case of doubt, test prior to application. Prevents damage to the original surface due to excessive scratching. Does not leave an acid or alkaline residue, which could damage concrete, plaster or cement.

CRC Ref.	SIZE	SNCF	RATP
20717	Aerosol 400 ml	72100237	1502012

CRC LABEL OFF SUPER

Label remover.

Solvent mixture, free of CFC's and HCFC's. Removes self-adhesive paper labels from most surfaces in 2-3 minutes after wetting (test on plastics prior to use). NSF listed as an adhesive and glue remover (NSF K3).

CRC Ref.	SIZE	SNCF	RATP
32668	Aerosol 250 ml	N/A	N/A
32314	Aerosol 400 ml	72100125	N/A

CRC FOODKLEEN

Fast drying solvent cleaner, for dissolving heavy contaminants in food processing areas.

A solvent blend designed for use in the food industry; NSF A8,C1 registered. The flash point is 40°C for safe application. Dissolves grease, oil, lubricants, and non-cured adhesives.

CRC Ref.	SIZE	SNCF	RATP
12056	Aerosol 500 ml	72100238	N/A
20119	Bulk 5 L	N/A	N/A

CLEANERS - WATER BASED

CRC INOX KLEEN

Water based, foaming cleaner for degreasing and cleaning shiny metal surfaces.

CRC Inox Kleen is NSF A7,C1 registered for use in the food industry. It eliminates fingerprints, watermarks, dust and dirt from stainless steel. It leaves a protective non-greasy barrier for a long-term original aspect and provides metal surfaces with a long-term staining and contamination resistance. CRC Inox Kleen is also suitable for aluminum, chrome and most plastics (test prior to use).

CRC Ref.	SIZE	SNCF	RATP
20720	Aerosol 500 ml	72100130	N/A

CRC ECO FOAM CLEANER

Non-flammable, slow drying water based cleaner, suitable for removing heavy contaminants in vertical applications in food processing areas.

A concentrated, water based degreaser for use in the food industry; NSF A1 registered. The stable, non-dripping foam formula ensures a long contact with the contamination, especially on vertical surfaces. Rinse with water after application. Readily biodegradable according to OECD 301B: 64%.

CRC Ref.	SIZE	SNCF	RATP
10278	Aerosol 500 ml	72100239	N/A

CRC PIPE DE-BLOCKER

Powerful de-blocking agent.

Water based, concentrated blend of caustic soda, surfactants and complexing agents. Highly alkaline, penetrates thick grease and fat residues. May be used for preventive maintenance.

Directions:

Pour the concentrate into the drain and leave to stand, preferably overnight. Rinse with warm running water.

CRC Ref.	SIZE	SNCF	RATP
30030	Bulk 1L	02100095	N/A

CRC GRAFFITI REMOVER

Removes traces of paints, inks and marker pens.

Versatile water based cleaner for the removal of general graffiti. Thixotropic solution for application to vertical surfaces. Ideal for use on delicate surfaces and safe for use on most substrates.

Directions:

Apply directly to the graffiti. Use of a brush may be required on porous surfaces. Leave until the graffiti has softened and rinse with water. Re-apply, if necessary. Always pre-test on plastics, coatings and varnishes before use.

CRC Ref.	SIZE	SNCF	RATP
20485	Bulk 5 L	N/A	N/A

CRC SCALE REMOVER

Powerful de-scaler.

Cleaner for the removal of deposits of lime scale and rust. Restores and improves surface finish. Suitable for use on most metals and plastics.

Directions:

Apply as a concentrate or diluted (up to 1: 20) according to the level of scale to be removed.

CRC Ref.	SIZE	SNCF	RATP
20482	Bulk 5 L	N/A	N/A

CRC TRAFFIC FILM REMOVER

Heavy-duty vehicle grime cleaner.

Water based cleaner for the removal of traffic film and general environmental soiling. Can be applied manually with a pressure washer or through automatic washing equipment. Safe for use on most plastics, painted surfaces and car bodies.

Directions:

May be used cold or hot. Apply as a concentrate or diluted (1: 20 to 1: 200) according to the degree of soiling. Rinse with cold water.

CRC Ref.	SIZE	SNCF	RATP
20486	Bulk 5 L	N/A	N/A

CRC HEAVY DUTY DEGREASER

Highly concentrated alkaline degreaser.

Highly concentrated water based detergent degreaser. Quickly removes oil, grease, silicones and heavy grime. Safe for use on most plastics, painted and enamelled surfaces.

Directions:

Can be used cold or hot. Apply as a concentrate or diluted (1: 6 to 1: 40) dependent upon the level of soiling.

CRC Ref.	SIZE	SNCF	RATP
20487	Bulk 5 L	N/A	N/A

CLEANERS - HANDCLEANERS

CRC SUPER HANDCLEANER

Handcleaner for heavily contaminated hands.

Contains beside the mild solvents and biodegradable surfactants, also small friction parts from natural sources. Very effective on grease, carbon and most stubborn contaminations.

CRC Ref.	SIZE	SNCF	RATP
30675	Tube 150 ml	02106896	N/A
30676	Bulk 5 L	N/A	N/A

CRC WIPES IND

Multipurpose industrial strength cleaning wipes.

Removes oil, grease, paint, ink and adhesives of different surfaces. The textured side of the wipe will gently but efficiently remove all contamination. The smooth side of the wipe will effectively retain contamination.

High absorbency cleaning wipes layered with an effective polymer web to give all the cleaning power of pumice without the scratching. Highly effective on a range of soiling types adhesives, tar, bitumen, resins, silicone grease, oils, petrochemicals, paints, and more. Cleaner and towel together in one convenient wipe. Contains skin conditioner to replace natural oils removed in cleaning. No contamination from heavy perfumes

CRC Ref.	SIZE	SNCF	RATP
20246	Tub: 50 wipes	N/A	N/A
12006	Bucket: 100 wipes	72100137	N/A

CRC PU FOAM CLEANER

Cleans fresh spoilage of PU or STP foams on substrates and equipment. Cleans the interior of the dispensing guns.

Cleaner, degreaser based on acetone for non cured polyurethane foam. Can be used manual or on the PU-gun for cleaning the exterior, the valves and internal body of the gun.

CRC Ref.	SIZE	SNCF	RATP
32231	Aerosol 500 ml	72100334	N/A

CRC STP FOAM 2-IN-1

Liquid seal for threaded metal couplings.

Mono component foam which expands and hardens with ambient humidity. This foam does not contain isocyanate has a low post expansion and high elasticity. Professional quality, convenient for all common used substrates in constructions.

CRC Ref.	SIZE	SNCF	RATP
32477	Aerosol 500 ml	72100362	N/A

CRC STP FOAM FIRE RESIST 2-IN-1

Liquid seal for machined metal flanges.

Mono component foam which expands and hardens with ambient humidity. This foam does not contain isocyanate. Professional quality, Specially convenient for static joints in building constructions which have to resist fire up till 4 hours.

CRC Ref.	SIZE	SNCF	RATP
32476	Aerosol 500 ml	72100361	N/A

CRC FOAM PU GUN

Liquid seal for threaded metal couplings.

Metal black foam gun used to apply CRC Foams.

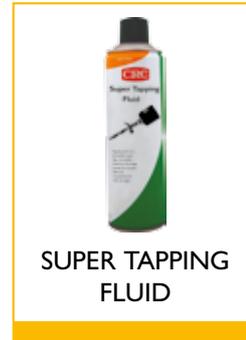

CRC Ref.	SIZE	SNCF	RATP
32241	Gun Metal 1 pc	72100333	N/A

LUBRICANTS - CUTTING FLUIDS

CRC SUPERCUT

Low viscous cutting liquid for normal, metal cutting operations.

Non-chlorinated, high performance cutting liquid. Reduces heat created by friction, cools by transferring heat away from cutting tools and removes shavings out of the cutting area. Increases the tool life considerably and protects freshly machined parts from rusting.

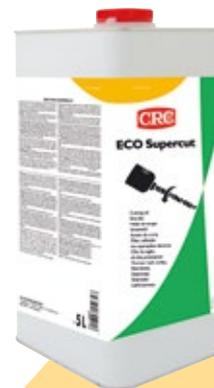

CRC Ref.	SIZE	SNCF	RATP
32687	Aerosol 250 ml	N/A	N/A
32210	Aerosol 400 ml	72100132	1352496
30353	Bulk 1L	N/A	N/A
20457	Bulk 5 L	N/A	N/A
30354	Bulk 20 L	N/A	N/A

CRC ECO SUPERCUT

Biodegradable cutting oil.

Natural straight oil, free of chlorine, for cutting operations in ferro, non-ferro and aluminium. Cools by transferring heat away from cutting tools, reduces heat created by friction and removes shavings out of the cutting area. Protects freshly machined parts from rusting and increases the tool life considerably. Readily biodegradable according to OECD 301B: 87%.

CRC Ref.	SIZE	SNCF	RATP
31911	Aerosol 500 ml	72100270	N/A
31917	Bulk 5 L	N/A	N/A

CRC SUPER TAPPING FLUID

High viscous cutting liquid for extreme metal cutting operations.

Non-chlorinated, high performance tapping fluid. Designed for high-pressure applications. Reduces heat created by friction, cools by transferring heat away from cutting tools and removes shavings out of the cutting area. Increases the tool life considerably and protects freshly machined parts from rusting.

CRC Ref.	SIZE	SNCF	RATP
30397	Aerosol 250 ml	72100145	N/A
30398	Bulk 1L	N/A	N/A
20552	Bulk 5 L	N/A	N/A

CRC LUB 21

Semi-synthetic cutting fluid for cutting and rectification operations on all kinds of metals (steel, copper, aluminum, stainless steel, etc.).

This cutting fluid provides a significant extension of the life time of cutting tools and gives a superb anti-corrosion coating to the machined parts. The cuttings are evacuated more easily. Compared to traditional fluids, CRC LUB 21 has a considerable extended life time.

CRC Ref.	SIZE	SNCF	RATP
20248	Bulk 5 L	02730083	N/A
30405	Bulk 25L	02730084	N/A
30404	Bulk 200 L	02730085	N/A

LUBRICANTS - DRY

CRC DRY LUBE

PTFE lubricant for dry lubrication and use on plastic friction points.

CRC Dry Lube is a fast drying dispersion of white, waxy PTFE particles, leaving a dry lubricating film on the surface. The product exhibits outstanding anti-stick and release properties. As a lubricant, it is most effective at reduced speeds and low loads.

CRC Ref.	SIZE	SNCF	RATP
30520	Aerosol 500 ml	72100206	N/A

LUBRICANTS - OILS

CRC 3-36

Light lubricating oil, good penetration for general use.

A universal lubricating oil with excellent penetrating properties. Suitable as multipurpose lubricant for simple applications. Gives also a good corrosion protection for indoor stored parts.

CRC Ref.	SIZE	SNCF	RATP
32673	Aerosol 250 ml	N/A	N/A
10110	Aerosol 500 ml	72100191	N/A
10114	Bulk 5 L	72100144	N/A
30362	Bulk 20 L	N/A	N/A
30364	Bulk 200 L	N/A	N/A

CRC ROST FLASH

Rust loosener with freeze shock effect.

When sprayed onto a rusted nut bolt connection, the rust cools down (-40°C) and cracks, leaving small fissures. The active liquid will rapidly penetrate into those small openings and blocked parts are separated easily. CRC Rost Flash loosens all kinds of threaded parts, hinges and sliding parts. Free of silicones and acids.

CRC Ref.	SIZE	SNCF	RATP
10864	Aerosol 500 ml	72100236	N/A

CRC RUST OFF IND

A penetrating oil that quickly frees and lubricates seized mechanisms.

Quickly penetrates through corrosion and soil. Frees seized and rusted bolts, nuts and other metal components. Leaves a lubricating MoS₂ film.

CRC Ref.	SIZE	SNCF	RATP
32688	Aerosol 250 ml	N/A	N/A
30507	Aerosol 500 ml	72100153	1361086

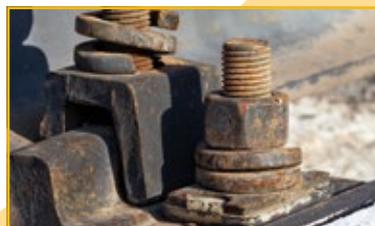

CRC ECO PEN OIL

A biodegradable penetrating oil.

Lubricates and frees seized and rusted metal parts (bolts, screws,...). Facilitates dismantling. Penetrates easily through corrosion and soil. Readily biodegradable according OECD 301B: 89%.

CRC Ref.	SIZE	SNCF	RATP
31909	Aerosol 500 ml	72100271	N/A
31915	Bulk 5 L	N/A	N/A

CRC SILICONE

Synthetic lubricating oil, suitable for plastic drives and applications at high temperatures. Superior synthetic lubricant with a premium grade high quality silicone. CRC Industrial Silicone exhibits superior lubrication and temperature/viscosity characteristics. Reduces friction and noise on non-metal parts.

CRC Ref.	SIZE	SNCF	RATP
31262	Aerosol 500 ml	72100124	N/A
30053	Bulk 5 L	N/A	N/A

CRC MULTI OIL

Food Processing Safe, light multipurpose oil for general use. Extremely efficient and effective general-purpose lubricant, for use in the food industry. CRC Multi Oil is NSF H1 registered, exhibits an excellent penetrating ability and loosens rust, scale, dirt and corrosion.

CRC Ref.	SIZE	SNCF
32605	Aerosol 500 ml	72100129
20157	Bulk 5 L	N/A

CRC CHAIN LUBE IND

Food Processing Safe, heavy lubricating oil for driving and transport chains. High performance, foaming lubricant, containing PTFE. CRC Chain Lube IND is compatible with o-rings, highly resistant to splash water and prevents corrosion to occur.

CRC Ref.	SIZE	SNCF	RATP
32636	Aerosol 400 ml	72100154	1360522

LUBRICANTS - GREASES

CRC MULTI GREASE

Lithium EP grease for general purpose.

An EP (extreme pressure)-lithium soap-based grease for rolling-element and sliding-contact bearings in all usual speed ranges. The chemically acting EP additives make the grease suitable for applications in which impact loads and vibrations occur.

CRC Ref.	SIZE	SNCF	RATP
30566	Tube 100 ml	N/A	N/A
30567	Cartridge 400 g	72100141	N/A
30568	Bulk 1 kg	N/A	N/A
30569	Bulk 5 kg	N/A	N/A

CRC SILICONE GREASE

Seals valve seats from an aggressive environment.

Allows smooth assembly of elastomeric packings and seals. CRC Silicone Grease forms a colourless, non-hardening film which eliminates squeaking, binding and sticking. Protects metal, alloys, plastics and rubbers.

CRC Ref.	SIZE	SNCF	RATP
30724	Aerosol 400 ml	72100131	1510541

CRC WHITE LITHIUM GREASE

Lithium complex grease with PTFE for low speed and high load applications.

A high purity NLGI 2 white, lithium based grease with an advanced additive package including PTFE for superior lubrication. CRC White Lithium Grease has a smooth consistency for optimum surface coverage.

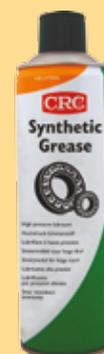

CRC Ref.	SIZE	SNCF	RATP
30515	Aerosol 500 ml	72100142	N/A

CRC SYNTHETIC GREASE

High pressure lubricant.

Synthetic NLGI 2 grease, highly charged with extreme pressure additives. Highly stable with long service life. Excellent water resistance. Functional over a wide temperature range: -40 °C to 180 °C. Provides long-lasting lubrication. Safe on most rubbers, plastics and coatings. Contains corrosion inhibitor. Very good oxidation stability. Acts like an oil, sets like a grease.

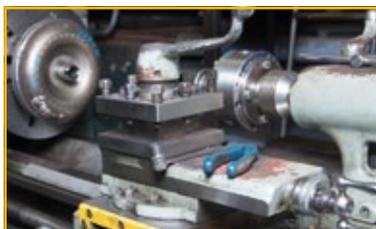

CRC Ref.	SIZE	SNCF	RATP
32637	Aerosol 500 ml	72100150	N/A

CRC SPINDLE GREASE

Grease for slow moving spindles for force transfer and linear antifriction bearings.

Excellent water resistance and functional over a wide temperature range. Produces a very low coefficient of friction. Reduces stick and slip problems and provides long lasting lubrication. Does not run or drip off, prevents seizing and fretting. High EP (Extreme Pressure)- and antiwear-properties. Can be used on guide rails, slides, slow moving spindles for power transfer, ...

CRC Ref.	SIZE	SNCF	RATP
32341	Aerosol 500 ml	N/A	N/A

CRC FOOD GREASE

Multipurpose grease for food processing equipment.

Long-term lubrication on food processing equipment where incidental food contact may occur. CRC Food Grease is NSF H1 registered for use in the food industry and can be applied on all metal constructions used in the food industry: hinges, valves, chains, gears, joints, ...

CRC Ref.	SIZE	SNCF	RATP
32317	Aerosol 500 ml	N/A	N/A
20158	Cartridge 400 ml	N/A	N/A
10291	Bulk 1 Kg	N/A	N/A
30438	Bulk 20 L	N/A	N/A

LUBRICANTS - PASTES

CRC COPPER PASTE

Paste with copper particles for heavy loads at start-up situations.

Also acts as anti-seize. Contains micronized copper powder, anti-oxidant and anti-wear additives. Prevents metal-to-metal contact, seizing, galling and fretting corrosion, especially on sliding bearings.

CRC Ref.	SIZE	SNCF	RATP
32684	Aerosol 250 ml	N/A	N/A
32340	Aerosol 500 ml	72100147	N/A
10690	Tube 100 ml	N/A	N/A
10699	Bulk 500 gr	N/A	N/A

CRC CERAMIC PASTE

Ceramic paste for heavy loads and high temperatures during start-up conditions.

Also acts as anti-seize. A ceramic separating and mounting paste for applications from -40°C to +1.400°C. Preventing metal-to-metal contact as cause for seizing, galling and fretting corrosion, during heavy start-up conditions or high temperature application.

CRC Ref.	SIZE	SNCF	RATP
32690	Aerosol 250 ml	N/A	N/A
32351	Aerosol 500 ml	72100192	N/A

CRC GRAPHITE ASSEMBLY PASTE

Assembly paste with solid graphite particles and MoS₂ for easy assembly and smooth start-up situations.

Has a good affinity to metals and resists high pressure and elevated temperatures.

CRC Ref.	SIZE	SNCF	RATP
32639	Aerosol 500 ml	72100307	N/A

CRC ALU PASTE

Assists with assembly of rough treaded parts and sliding steel surfaces.

Prevents seizing. Takes up high loads. Supports extreme slow movements. Smoothens rugged surfaces. High temperature resistance. Convenient 360° (including inverted position) spray valve for aerosols.

Applications:

Rugged thread, guide rails, assembly of rugged parts, sliding surfaces.

CRC Ref.	SIZE	SNCF	RATP
32147	Aerosol 500 ml	72100005	1360856

ANTI-CORROSION - LONG-TERM

CRC ZINC

Cathodic protection, even for damaged galvanised parts.

Zinc based coating with excellent adhesion to metal surfaces. The high zinc content is sacrificed during the corrosion process and so provides a galvanic protection of the treated metal. The dry coating contains a maximum amount of zinc (purity 98%), ensuring a self-healing effect when the coating gets scratched. The dry coating is matt and has an excellent surface structure to be painted.

CRC Ref.	SIZE	SNCF	RATP
30563	Aerosol 500 ml	72100138	1502098
30564	Bulk 750 ml	N/A	N/A

CRC ZINC PRIMER

Corrosion protective primer, easy to paint over.

A Zinc-Phosphate primer for metal surfaces. Dries quickly. Improves adhesion of the finishing coating. A corrosion protective additive slows down corrosion. Can be painted over with all kinds of single component paints, already after one hour.

CRC Ref.	SIZE	SNCF	RATP
30419	Aerosol 500 ml	N/A	1540800

CRC GALVA BRITE

Protective, final coating with a shiny aluminum aspect.

A single component Zinc-Aluminum coating. Protects against corrosion and forms a glossy aluminum look on the coated surface. Good adhesion to metal surfaces. Results in a unique combination of flexibility and hardness.

CRC Ref.	SIZE	SNCF	RATP
30423	Aerosol 500 ml	N/A	1502103

CRC GALVA SHINE

Touch-up paint for hot galvanised pieces.

Protective coating with an exceptional gloss. Gives the work piece the aspect of a freshly hot galvanised piece. The film is very resistant and keeps its brilliance in time. Ideal paint for touch-ups of freshly galvanised pieces. The paint can also be used to give pieces a new zinc look

CRC Ref.	SIZE	SNCF	RATP
32319	Aerosol 500 ml	72100143	N/A

CRC ALU HI-TEMP

Protective coating with aluminum look.

Resists high temperatures. Paint that resists high peak temperatures up to 600°C. Provides a hard and durable surface, which does not burn, crack or scale down, even at high temperatures. Withstands large fluctuations in temperature. Excellent weather resistance.

CRC Ref.	SIZE	SNCF	RATP
32421	Aerosol 500 ml	72100244	N/A

ANTI-CORROSION - TEMPORARY

CRC 3-36

Short-term corrosion inhibitor. Indoor protection up to 6 months.

Multipurpose corrosion inhibitor with water repellent and lubricating properties. Forms a thin, almost invisible and long-lasting protective film against water and oxygen. Exceptional penetrating properties, allowing the product to work even into the smallest pores and cracks. CRC 3-36 protects metal parts from corrosion when stored indoors, during a shorter period.

CRC Ref.	SIZE	SNCF	RATP

CRC SP 400

Long-term outdoor, corrosion inhibitor.

Outdoor protection up to 2 years. Waxy corrosion protector. Provides an effective corrosion protection in outdoor conditions, for a long period. The waxy protective film does not become brittle and protects against heavy corrosive circumstances as moisture and salt water.

CRC Ref.	SIZE	SNCF	RATP
32661	Aerosol 250 ml	N/A	N/A

ANTI-CORROSION - TEMPORARY

CRC URETHANE ISOLATION

Protective, urethane based varnish for electronic components.

Red colored one-component, urethane type coating. Urethane coating seals out water and moisture and acts as a barrier for contaminants. The coating dries fast and adheres well to most surfaces. After curing, the protective film has a high flexibility, is durable and resists abrasion and contamination.

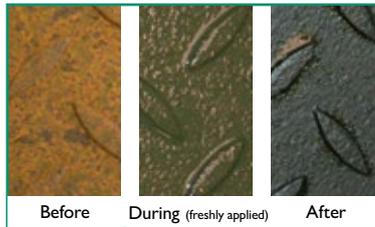

CRC Ref.	SIZE	SNCF	RATP
32670	Aerosol 250 ml Red	72100190	N/A
10641	Bulk 4 L Red	72100128	N/A

CRC RUST CONVERTER

Rapidly converts rust into a tough, protective surface.

Transforms the rust layer into a durable coating. Forms a tough barrier against corrosion. The final black coating forms a natural protection for the valuable steel structure. Easy and ready to use - not necessary to paint afterwards. Applicable with a normal paint brush. Immediate results; visible within 5 minutes (depending circumstances). Water based product. Contains zinc pigments. Can be over-painted with esthetic top coat e.g. CRC Galvacolor.

CRC Ref.	SIZE	SNCF	RATP
30067	Bulk 750 ml	72100190	N/A

CRC VARNISH E 200

Silicone based insulating, protective varnish. With UV tracer.

Insulating varnish for the protection of printed circuits, electrical windings and fixed assemblies, operational in humid conditions.

CRC Ref.	SIZE	SNCF	RATP
32915	Aerosol 400 ml	02119124	N/A

CRC MARKER PAINT

Special multi position paint for manual marking and signaling.

A fast drying paint, formulated for temporary signaling and marking jobs for all types of outdoor works. CRC Marker Paint can be used in all positions, no need to purge after use. Due to the special resin the product has a very good adherence to any type of substrate (asphalt, rock, concrete, wood, ...), even under severe weather conditions (humidity, cold, ...). The special formula ensures a good (fluorescent) aspect over light and dark areas.

CRC 2-26

Repels any humidity left after water damage, protects against friction and corrosion.

CRC 2-26 is a multipurpose lubricant, preventing electric and electronic malfunction due to water penetration, humidity, condensation or corrosion. Displaces water, cleans, removes current leaks, lubricates and protects.

CRC Ref.	SIZE	SNCF	RATP
32663	Aerosol 250 ml	N/A	N/A

CRC BELT GRIP IND

Adhesive belt lubricant.

Water resistant. Aids transmission efficiency and gives extra pulling power. Stops slipping and squeaking. Designed for use in food processing areas where incidental food contact may occur. Prevents slip on all kinds of belts, except toothed belts. CRC Belt Grip IND increases the transmission of power between belts and pulley. Gives an improved traction and allows running in at reduced belt tension.

CRC Ref.	SIZE	SNCF	RATP
32336	Aerosol 500 ml	72100336	N/A

CRC PEEL OFF

Protective Varnish.

Red color. Easy to remove, CRC Peel Off will form a protective flexible coating. The homogeneous and non-porous thin film will protect pieces against humidity, corrosion and other weather influences. Ideal for intermediate protection during transport or periods of inactivity. It can also be used to protect paint cabinets. The film can easily and rapidly be removed just by peeling off (without the use of solvents).

20491	Bulk 5 L	N/A	N/A

CRC ECO LEAK FINDER

Allows detecting leaks in gas conducts and installations.

Water based detector for gasses. Meets the requirements of EN 14291 and DVGW (Deutsche Vereinigung des Gas- und Wasserfaches) registration number NG-5170AS0069. CRC Leak Finder detects gas leaks in pressurized pipe work and pressurized systems. At the location of a gas leak, it forms highly visible bubbles. Biodegradable according to OECD 301B: 31%.

CRC Ref.	SIZE	SNCF	RATP
10732	Aerosol 500 ml	72100196	1503107
30058	Bulk 5 L	N/A	N/A

CRC ROM 300

Aqueous based protection for pantographs.

An aqueous based semi-permanent protective film to prevent the formation of ice and the accumulation of snow on pantographs. Directions: Apply to the surface to be treated. Allow to dry completely prior to operation.

CRC Ref.	SIZE	SNCF	RATP
30056	Bulk 5 L	02103112	N/A

CRC GD 265

Climatological protection of electrical equipment.

CRC GD 265 is a silicone paste with the consistency of a thick vaseline, suspended in non-toxic and non-flammable propellants.

CRC Ref.	SIZE	SNCF	RATP
31356	Aerosol 500 ml	02109590	N/A

CRC MINUS 50

Inert, non-flammable coolant.

Strong non-flammable inert dry coolant, down to -50°C, for electrical and electronic maintenance. CRC Minus 50 can be used for maintenance, fault detecting and repairs in the electric and electronic field.

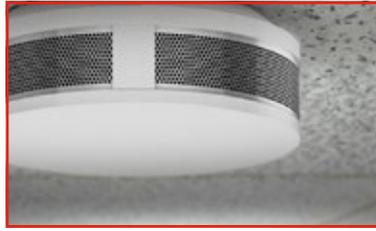

CRC Ref.	SIZE	SNCF	RATP
30720	Aerosol 250 ml	N/A	N/A
30721	Aerosol 500 ml	72101902	N/A

CRC SMOKE TEST

Conveniently tests the functional ability of a smoke detector.

Can be sprayed while standing on the floor eliminating the need to climb ladders or chairs. Ideal for residential or commercial detectors and is safe and easy to use. A short 3 second burst of the tester is all it takes. In addition, the tester checks for obstructions or debris which clog detector vents and prevent smoke from properly entering the sensing chamber. This important safety test is not accomplished by pushing a test button.

CRC Ref.	SIZE	SNCF	RATP
32755	Aerosol 250 ml	72100008	N/A

CRC NSR SENSITIVE

Mould release agent for plastics and rubbers. Paintable

CRC NSR Sensitive allows post-finishing operations. Suitable for plastics and rubbers to be painted, lithographed, bonded, thermowelded after moulding. CRC NSR Sensitive forms a colorless film. CRC NSR Sensitive avoids craterisation of paints at spreading.

CRC Ref.	SIZE	SNCF	RATP
32960	Aerosol 500 ml	N/A	N/A
32964	Bulk 5 L	72100199	N/A

CRC NSR FOOD

Mould release agent for low density polyethylene.

CRC NSR FOOD is a pure food safe quality oil, dissolvent in hydrocarbons. The product forms a translucent film, which provides a temperature resistance up to 200 °C. Can be used in cosmetic, pharmaceutical and food industries. 360 ° valve allows using the product upside down.

Registered NSF 139860 - H1.

CRC Ref.	SIZE	SNCF	RATP
32957	Aerosol 500 ml	72100308	N/A

CRC TRIFLOW

PTFE based multipurpose fluid for mould ejectors and precision mechanisms

Contains micro particles of PTFE. Penetrates into hard-to-reach areas, displaces moisture and cleans. Durable lubrication thanks to its high quality oils, extreme pressure additives and solid (PTFE) lubricants. Protects against corrosion and humidity. Seals out dirt, dust, sand and other abrasive particles. Resists to rust and corrosion, under the most extreme conditions.

CRC Ref.	SIZE	SNCF	RATP
31343	Aerosol 400 ml	72100035	N/A

WELDING - NON-DESTRUCTIVE TESTING

The CRC Crick system detects in a quick and reliable way, small cracks or failures in welding seams, without expensive equipment or destructive testing. (NDT - Non-destructive testing)

CRC CRICK 110

Solvent cleaner to prepare the surface for examination.

A fast drying cleaner for the removal of all kinds of contaminants on the surface to be inspected. Serves as a preparation of the surface before inspection with liquid penetrant.

CRC Ref.	SIZE	SNCF	RATP
30723	Aerosol 500 ml	N/A	1510542

CRC CRICK 120

Penetrating colorant to mark the cracks and failures.

Red colored, water washable penetrant for non-destructive testing of metal surfaces. The penetrant can flow into tiny cracks within a time frame of 10 to 20 minutes. The excess of penetrant has to be washed away before using the developer.

CRC Ref.	SIZE	SNCF	RATP
30205	Aerosol 500 ml	N/A	N/A

CRC CRICK 130

Developer to make the marked cracks and failures visible.

Magnifies and makes each trace of Crick 120 visible after the developer has been applied, for at least 7 minutes. Post cleaning of the inspected area can be done with Crick 110. Easily removable.

CRC Ref.	SIZE	SNCF	RATP
20790	Aerosol 500 ml	N/A	N/A

1. CLEANING OF THE SURFACE

The surface to be checked must be clean, degreased and dry. All soiling like rust, oil, grease, paint, ... which can mask the imperfections must be removed. Finish the cleaning by spraying **CRC Crick 110** generously. If possible wipe with an absorbent cloth and allow to dry thoroughly.

2. PENETRANT

Shake the can of **CRC Crick 120** prior to use. Spray the penetrant in a light, even film on the surface, wetting all areas to be controlled. Allow to drain for 10 to 20 minutes.

3. EXCESS PENETRANT REMOVAL

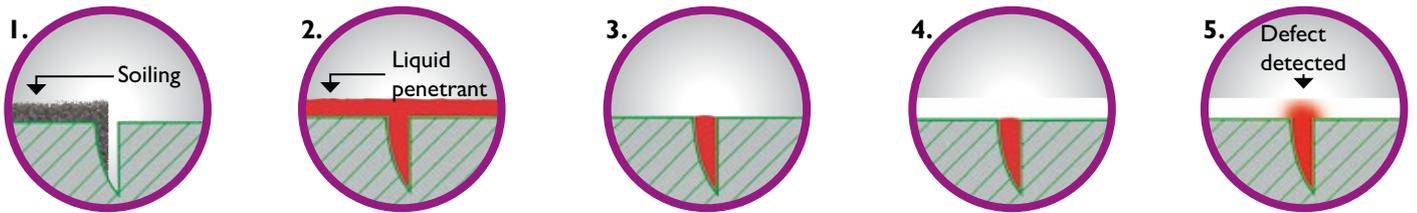

Remove excess of penetrant by wiping the surface using a lint-free cloth. Apply **CRC Crick 110** or water (**CRC Crick 120** is water washable) until all visible, colored traces are removed. Care must be taken that only disturbing penetrant on the surface is removed. Dry properly.

4. DEVELOPMENT

Shake the can of **CRC Crick 130** thoroughly prior to use. Spray a light, homogeneous coating of developer from a distance of about 20 cm. Avoid any excess of developer to avoid masking the finest flaws. Allow to develop for at least 7 minutes so that imperfections are visible.

5. VISUAL INSPECTION OF DEFECTS • DETECTS CRACKS OF 20 µm!

As time passes, the defects appear as red spots or lines on a white background. The speed of appearance, the shape and dimensions can give information on the nature of the defects. If necessary, post-clean the controlled surface and protect against corrosion with one of CRC's corrosion protection products.

WELDING-ANTI-SPATTER

CRC ECO BIO WELD

Non-flammable water based anti spatter, ideal when galvanising will be performed afterwards. Readily biodegradable according to OECD 301B: 68% (Bulk, 74%). Odourless, non-flammable and safe in use. Fine spray pattern ensures total control and economical coverage. Allows post welding operations, painting, plating, galvanising etc to be undertaken without interference. Contains a rust inhibiting agent.

CRC Ref.	SIZE	SNCF	RATP
31913	Aerosol 500 ml	72100198	N/A

CRC BRAKLEEN PRO

Powerfull and fast-drying brake parts cleaner.

Characteristics:

- Multiple active components
- Effectively removes brake fluid, grease and oil
- Reduces squeaking from disc brakes
- Safe on all metal surfaces, does not stain

Benefits:

- Cleans up to 40 brake discs
- Fast evaporation and high cleaning power to minimize downtime
- Pleasant citrus smell
- Easy to handle 360° spray technology

CRC Ref.	SIZE	SNCF	RATP

32787	Bulk 5 L	02100046	N/A

CRC GLASS CLEAN PRO

Removes road film, grease, finger prints, smoke haze, squashed insects and residues from glass surfaces.

Characteristics:

- Superior blend of surfactants, additives and solvents
- Highly effective cleaning foam
- Biodegradable

Benefits:

- Removes greasy marks, grime, squashed insects, smoke haze and finger prints
- Glass cleaning without leaving a film
- Environmentally friendly

CRC Ref.	SIZE	SNCF	RATP
32739	Aerosol 500 ml	72100241	N/A

CRC COCKPIT SHINE PRO

Forms a protective barrier against color fading and hardening caused by the penetration of ozone, U.V. rays and oxygen.

Characteristics:

- Cleans and protects plastics and rubbers
- Polishes and shines dashboards, bumpers and spoilers
- Leaves a refreshing fragrance
- Gives a silky shine effect

Benefits:

- Forms a clear, shiny, fresh water-repellent film
- Forms a protective barrier against color fading and hardening
- Leaves a 'new look' interior

32726	Aerosol 500 ml	72100242	N/A

CRC CARB & EGR CLEANER PRO

Powerful solvent blend to remove gum, carbon and sludge from carburetors, EGR, PCV and throttle valves in combustion engines.

Characteristics:

- Active ingredient mixture with high solvency power
- Cleans the carburettor and fuel dispensing system
- Compatible with both diesel and gasoline engines
- Dissolves gum and resin

Benefits:

- Rapid and effective cleaning without disassembly
- Cleaning without disassembly, better fuel economy
- Engine runs more smoothly
- Sprays also overhead

32744	Aerosol 500 ml	72100155	N/A

MAINTENANCE

CRC 5-56 PRO

Displaces moisture, starts wet engines, prevents electrical failures. Lubricates, loosens seized and rusted mechanisms.

Characteristics:

- Removes oil, dirt and grease
- Penetrates rust and corrosion
- Drives out moisture
- Cleans and protects
- Lubricates hinges, levers and wheels and stops squeaking

Benefits:

- Very high penetration capability
- Leaves a thin film that protects metals against corrosion
- Highly water repellent
- Reduces friction
- Releases screw connections

CRC Ref.	SIZE	SNCF	RATP
32734	Aerosol 500 ml	72100156	N/A

CRC MULTILUBE PRO

Transparent multipurpose lubricant, with a temporary blue aspect for general use in the garage sector.

Characteristics:

- Transparent multipurpose lubricant
- Non-dripping
- Temporary blue colour for easy identification
- High pressure and water resistant
- Wide temperature range up to +200°C

Benefits:

- Long-term lubrication
- High adhesive qualities
- Easy lubrication

CRC Ref.	SIZE	SNCF	RATP
32697	Aerosol 500 ml	72100240	N/A

CRC HD VASELINE PRO

Based on pure white Vaseline, a paraffin oil that hardens to a pasty consistency at room temperature.

Characteristics:

- Pure white vaseline to protect battery clamps and electric contacts
- Leaves a thick pasty protective film
- Prevents acid damage

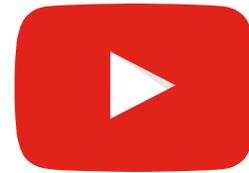

Benefits:

- Protects against oxidation and corrosion
- Water repellent
- For longer battery life
