

Description

8 position 2.54 mm open header, through-hole

Launchpad let's makers attach to their component, microcontroller or other connections directly with or without their own headers.

Features

Extra through-holes on the PCB for various types of mounting techniques, for example, screws, thread, hot glue, etc.

MAKEON

LAUNCHPAD

Safety Guidelines

Warning: Contains small parts, sharp points/edges, and conductive materials.

Avoid damage to the product. Avoid corrosive materials, water and abrasives.

Avoid oral contact. Avoid other materials that could affect the integrity of the product.

Benefits

- »Extend the contact point for all types of conductive materials and cables to maximize accessibility.
- »Re-usable, solder-free connections to components like resistors, capacitors, diodes, etc. for plug and play activities or quick pin/part change outs.
- »Accommodates low profile, flexible circuitry for tight spaces, wearables, and more!

Electronic Data

Type	Amps
Corrente massima per traccia	1.3
$\Delta T^{\circ}F = 50$	
$\Delta T^{\circ}C = 10$	

Frequently Asked Questions

Who uses Launchpads?

MakeOn Products are recommended for anyone 5 years old and up.

Instructions

Gather electronic components i.e headers, microcontrollers or sensors.

Position Open Model Launchpad on circuit. Connect Pad to circuit using method of choice i.e hard soldering or sewing. Wear Safety Glasses

Use Space tape, conductive paint, wire, thread, copper tape, alligator clips, banana plugs and more.
