

FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and longevity, reducing the need for frequent replacements
- **Compact Design:** 5/8 inch length and 0.5 inch outside diameter allow for easy installation in tight spaces
- **Optimised Shaft Diameter:** 0.31 inch shaft diameter ensures compatibility with standard shafts, enhancing versatility

RS PRO 5/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-076

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for various industrial settings. The compact design with a 5/8 inch length and 0.5 inch outside diameter ensures seamless integration into machinery, providing smooth operation and reducing maintenance needs.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.31 in

Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	0.5 in
