- UK manufactured to ISO certified quality and environmental standards

## RS PRO Stormor Shelving Systems

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

### RS PRO Stormor Shelving Systems

Stormor Shelving is a truly versatile and interchangeable system, ideal for office or departmental storage, storerooms, stockrooms, maintenance stores and industry in general.

All the benefits of different types of steel shelving have been combined in this truly versatile and interchangeable system. With the economy of open Mono frames, the simplicity of one-piece Solo frames, or the clean lines of Duo frames, Stormor shelving offers it all.

Shelves and storage accessories are a common fitting to all frame styles - so you can adapt your shelving as future needs change without worrying about compatibility. Accessories feature clip-in fitting so that any changes are quickly and easily made.

A major advantage of Stormor shelving are the slim 20mm profile frames, which give runs of shelving a neat, co-ordinated appearance. This design feature, coupled with colour options on frames makes Stormor ideal for use in offices and commercial environments. Stormor Shelving can be fitted to our range of mobile chassis, to offer even more potential for versatile and space-efficient storage solutions
