

Datasheet

RS Pro 0.25L Spray Gun with 1 mm Tip

RS Stock No: **297-9936**

Product Details

RS Pro spray gun features 1 mm tip and 0.25 L nylon container. It is suitable for detail spraying to small refinishing repair work. The gun comes complete with a stainless steel fluid nozzle. The needle makes it suitable for both water and solvent based paints.

Features and Benefits

- 0.25 L nylon container
- 60cc paint jar with swivel adapter
- 1.0 mm stainless steel nozzle
- Air consumption is 5 to 7 CFM

ENGLISH

Specifications:

Air Inlet (BSP)	1/4 in
Container Capacity	0.25 L
Tip Size	1 mm

OPERATION:

A. Starting :

- Use spanner to tight the nozzle.
- Check for correct tightening of stuffing box to avoid any air leakage.
- Air hose should be blow out before fitting with the air connection.
- Before using this gun, Please make sure that it is carefully flushed w/solvent.

D. Exchange of Nozzle Set

Make sure that the complete nozzle set is exchanged when changing to another nozzle.
A set comprises of air cap, paint nozzle and paint needle.

E. Tensioning of Packing Screw on Needle Seal

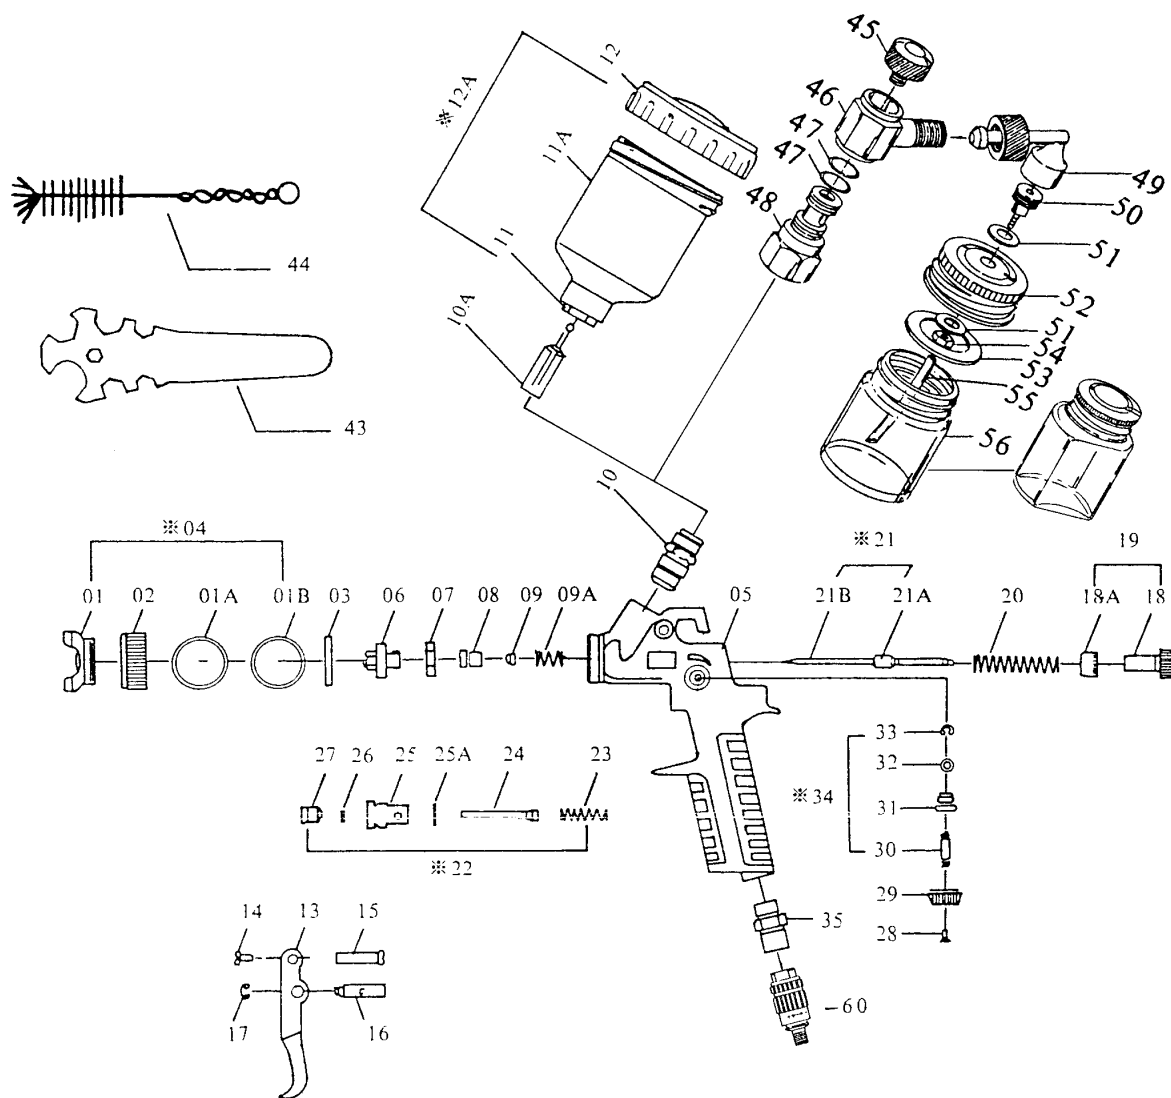

The needle seal is effected by a teflon seal and a needle packing with self-tensioning compression spring.

To Change the packing during general overhaul, please use the socket spanner.

F. Cleaning and Gun Care

- Flush gun thoroughly with solvent.
- Clean air nozzle with brush. Never place the whole gun to solvent.
- Clogged holes should never be cleaned with hard objects as the smallest amount of damage may badly influence the spray pattern.
- Packing must be slightly lubricated after cleaning of gun.

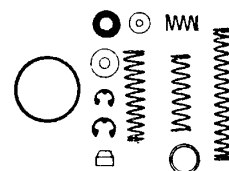

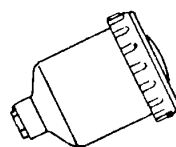

****WARNING : NEVER AIM SPRAY GUNS AT PEOPLE, SOLVENTS AND THINNERS CAN CAUSE INJURY**
