

55 5110

Lightweight cut level **E**
PU palm coated glove

Since introducing the 55-5110 glove in August last year, the number of hand injuries on site has been dramatically reduced. So much so they have currently recorded an **82%** reduction of hand cut injuries occurring.

This was by far the most positive engagement exercise yet, that provided the people with a glove that was comfortable, dexterous and most importantly the safest we have adopted. All the staff are happy wearing them and they are much preferred to the previous glove used.”
Health and Safety Manager, Senior Aerospace.

Tilsatec | +44 (0)1924 375742 | info@tilsatec.com | www.tilsatec.com

For businesses who want expertise they can rely on to keep their people safe, Tilsatec offer high performance hand and arm protection. We manufacture our own proprietary cut resistant yarn - the primary source of mechanical protection, on site in the UK. This means we can deliver maximum performance in every fibre of what we do. Because when our gloves perform at their best, your people can perform at their best.
