Datasheet

Proximity Switch, 500mA, 50V dc

RS Stock number [333-192](#)

Description:

Proximity switches primarily designed for discrete protection of doors and windows. The switches are of moulded construction incorporating a N/O SPST magnetically operated reed switch. The permanent actuating magnet is also of moulded construction to facilitate easy fixing.

Specifications:

- Activation Type: Proximity Switch
- Depth: 13.6 mm
- Height: 59 mm
- Width: 14 mm
- Operating Gap maximum: 15 mm
- Current: 500mA
- Voltage: 50V dc
