

Saturn™

Be highly visible, safe and warm

Saturn™ is an insulated liner with a high visibility fluorescent vinyl coating. The brushed, double-layer, interlock cotton liner is extremely insulating and provides exceptional warmth in cold conditions. Add to this the highly visible fluorescent coating and you have a glove that is ideal for outdoor use. The dipped vinyl coating is resistant to grease, oil and grime, and has a granular non-slip surface maximising handling ability and serving to increase abrasion resistance and improve durability. The pre-curved palm and fingers conform to the natural shape of the hand allowing for prolonged use with minimal hand fatigue. The extra-long knit wrist adds comfort and ensures that the hands remain free of dust and debris.

Typically used for:

- General Maintenance
- Local Authority Work
- Pedestrian Crossing Operative Work
- Railway Line Maintenance
- Traffic Control
- Emergency Services Work
- Offshore Oil & Gas Operations
