# RS Pro Tank & Cistern Float Valve, 1/2in

## Product Details

### Float Valve - Plastic Equilibrium

- WRAS approved
- Small and quiet in operation
- Minimum working pressure 0.15 bar
- Fits most tanks and cisterns
- Manufactured from 4-ton tensile strength engineering resin to high tolerances
- Available for side and bottom inlets
- Tail length 1 1/4 in (1/2 in Male BSP Thread)
- Removable, easily cleaned filter
- Pressure maximum 14 bar
- Stock no. 802-070 is side entry, Stock no. 802-086 is bottom entry

ENGLISH

## Float Valves

- These Float Valves are suitable for pressures up to 14 bar (206 psi).

### Specifications:

Type	Bottom Entry
Connection Size	1/2in
Maximum Working Pressure	14 bar
