

FEATURES

- **Sintered Bronze Material:** Ensures high wear resistance and longevity.
- **20 mm Length:** Suitable for a wide range of mechanical applications.
- **12.04 mm Outside Diameter:** Compatible with standard housing dimensions.
- **7.98 mm Shaft Diameter:** Provides a precise fit for optimal performance.
- **Self-Lubricating:** Reduces the need for maintenance and extends service life.

RS PRO 20mm Sintered Bronze Plain Bearing, 12.04mm OD

RS Stock No: 528-259

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is crafted from sintered bronze, offering reliable performance in various industrial applications. Designed for shafts with a diameter of 7.98 mm, it provides smooth operation and reduces friction in mechanical systems. Ideal for use in environments where durability and low maintenance are essential.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	7.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	12.04 mm
