

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1 in Length:** Suitable for a range of applications, offering flexibility in design.
- **0.94 in Outside Diameter:** Ensures compatibility with standard housings, facilitating easy installation.
- **0.68 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing versatility.
- **Plain Bearing Design:** Offers a simple and cost-effective solution for reducing friction in rotational applications.

RS PRO Sintered Bronze Plain Bearing, 1 in Length

RS Stock No: 558-511

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for smooth and efficient operation in various mechanical applications. Ideal for reducing friction between moving parts, it offers durability and reliability in demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.68 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	0.94 in
