38030/30141

panel socket outlet

- The NF-USE 16 A socket outlet ref. **38930** enables panel mounting (see page 499).

38930

sealed boxes

- For installation of MUREVA switch and socket assemblies.
- The boxes are delivered with a Ø 20 mm EVA* cable entry and a plain end cap.
- IP 55/IK 07 (2 J).
- Non flame propagating material. Resistance to hot wire test: 650 °C - 30 s.
- Colour light grey RAL 7035 or white RAL 9010 depending on the reference.
- Double station boxes are available in both vertical and horizontal combinations.
- The triple horizontal box offers 4 cable entries, 2 at top and 2 at bottom. The first station (on left) is fitted with 2 Ø 20 mm EVA* cable entries.
- The output cable cover ref. **37931** enables the assembly of a junction box with the aesthetics of sealed switchgear. It incorporates a cable clamp.
- Two alternatives for installation of earthing terminal in box.
