

## FEATURES

- **Sintered Bronze Material:** Provides superior wear resistance and longevity, ensuring reliable performance over time
- **1/2 in Length:** Suitable for a wide range of applications, offering versatility in use
- **0.43 in Outside Diameter:** Ensures compatibility with various housing dimensions
- **0.31 in Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration

## RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-162

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The RS PRO 1/2 in Plain Bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, this bearing offers excellent durability and performance, making it ideal for reducing friction between moving parts.

## General Specifications

|                |               |
|----------------|---------------|
| Product Type   | Plain Bearing |
| Shaft Diameter | 0.31 in       |

## Mechanical Specifications

|                  |                 |
|------------------|-----------------|
| Length           | 1/2 in          |
| Material         | Sintered Bronze |
| Outside Diameter | 0.43 in         |
