

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs
- **35 mm Length:** Suitable for compact spaces, ensuring easy integration into existing systems
- **44.06 mm Outside Diameter:** Compatible with a wide range of shaft sizes, enhancing versatility
- **34.97 mm Shaft Diameter:** Ensures a precise fit, improving operational efficiency

RS PRO 35 mm Sintered Bronze Plain Bearing, 44.06 mm OD

RS Stock No: 518-222

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient motion between moving parts. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. Its compact design with a 35 mm length and 44.06 mm outside diameter ensures compatibility with a range of shaft sizes, providing smooth operation and extended service life.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	34.97 mm

Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	44.06 mm
