Product Details

TE Connectivity Econoseal III 070 Series Connector Contacts

A range of socket and pin crimp contacts for the Econoseal III 070 series automotive wire connectors.

TE Connectivity Econoseal Connector System

Designed to meet the exacting requirements of the automotive industry, for a reliable sealed connector.

All connectors are designed to be used with thin walled non-irradiated PVC cables

Though designed initially for automotive applications, Econoseal III can be used in any industry where a reliable sealed connector is needed
