

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties
- **50 mm Length:** Suitable for a wide range of shaft lengths
- **40.06 mm Outer Diameter:** Ensures compatibility with standard housing sizes
- **31.97 mm Shaft Diameter:** Designed for precise fit and optimal performance
- **Durable Construction:** Enhances longevity and reduces maintenance needs

**RS PRO 50 mm Sintered Bronze Plain Bearing, 40.06 mm Outer Diameter**

RS Stock No: 518-213

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a 50 mm length and a 40.06 mm outer diameter, it is ideal for supporting shafts with a diameter of 31.97 mm. The sintered bronze material ensures durability and reduced friction, making it suitable for various industrial uses.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	31.97 mm

## Mechanical Specifications

Length	50 mm
Material	Sintered Bronze
Outside Diameter	40.06 mm
