

18V XR Brushless Blower 5Ah Battery

DCMBL562P1-QW

Powerful brushless motor to deliver max m³/min and Km/h for performance on a variety of applications. Increased Km/h with concentrator to focused applications.

Weight is properly distributed for comfortable use and maximum maneuverability. "Cruise" control trigger for speed lock in specific applications

Differentiate in aisle by offering a concentrator in a 'new to market' format. Concentrator that is compatible with axial fan design.

Aerospike" Concentrator Concentrate the air flow for a higher speed up to 200 km/h. Pick the right performance for every job

Runtime (No Load)	12
-------------------	----

Secondary handle	NO
------------------	----

Battery Capacity	5 Ah
------------------	------

Battery Type	Lithium-Ion
--------------	-------------

Battery Voltage	18 V
-----------------	------

Product Type	Handheld
