

FEATURES

- Environmentally friendly propellant
- Inert pure compressed gas
- Excellent for removing particulates from inaccessible areas and delicate equipment
- Non-invertible flammable spray duster

RS PRO Air Duster, 400 ml, Flammable

RS Stock No.: 153-1978

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 400ml butane air duster is a non-invertible flammable spray duster. The ERFD4000 safely removes dust and airborne contamination. The air duster is especially useful for the removal of debris and contaminants from delicate and inaccessible areas of electrical and electronic equipment. Make sure to use the spray duster either in a vertical position or at an angle of no greater than 60° to avoid freezing. Avoid spraying it directly onto any live equipment, as it is a flammable propellant.

General Specifications

Package Type	Aerosol
Package Size	400ml
Active Chemical	Butane
Flammable	Yes
Invertible	No
Flash Point (°C)	<-60
Boiling Point (°C)	40
Vapour Density (@15oC, air=1)	1.5

Approvals

Compliance/Certifications	ANSI/ESD S20.20:2014, BS EN 61340-5-1:2007
