

Part Number MA180033 - PIC18F87J94 Plug in Module

The PIC18F87J94 Demo Board/Plug-In Module is a board featuring the 80-pin PIC18F87J94 which supports the evaluation of the following 64- and 80-pin PIC ® microcontrollers: PIC18F87J94, PIC18F67J94, PIC18F86J99, PIC18F66J99, PIC18F86J94, PIC18F66J94, PIC18F85J94, and PIC18F65J94.

This plug-in-module (PIM) can be plugged into the popular PICDEM PIC18 Explorer Board (DM183032) for additional functionality or it can be used standalone. When the board is used in the standalone configuration, the included RJ-11 to ICSP adapter (AC164110) can be used to reprogram the board using RJ-11 based programmers.

Package Contents:

- PIC18F87J94 PIM Board
- RJ-11 to ICSP Adapter (AC164110)
- USB A to Mini-B Cable
