RS PRO Cat 6A Loaded Single Gang Faceplate Single Port

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

A single faceplate pre-assembled with Cat6a pass-through shielded clip in euro modules (50 x 25mm). The Cat6a modules are toolless type and colour coded making installation of cables easier. These faceplates come with screws and cable ties to hold the module firmly around the cable. The module can fit cables with a variety of diameters due to an adjustable cable clamp. The faceplate is designed for 86mm x 86mm back boxes and are available with one or two Cat6a modules.

Please note: Not compatible with shallow back boxes of 32mm deep, but will work with 45mm back boxes or greater if the cable uses rear cutout.
