Product Description

Splice Tape Extenders (PET Type) are used for joining carrier tape in the SMT process. Splice Tape Extenders add an extra 48cm (19") of tape, preventing component reel wastage and helps to reduce machine downtime.

Our Splice Tape Extenders are easy to use; peel off the backing tape from the yellow adhesive end and attaching to the Splice Leader Tape.

Stored under 20-28C, and humidity 40-70%, avoid exposure in sunshine, avoid high temperature over 40°C and high humidity over 75% RH.

Shelf life: 6 months from manufacturing date.
