

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **1-1/4 in Length:** Suitable for applications with limited space, offering flexibility in design.
- **2 in Outside Diameter:** Ensures compatibility with a wide range of housings and assemblies.
- **1.74 in Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy installation.
- **Low Friction:** Reduces energy consumption and wear, enhancing efficiency.
- **Self-Lubricating:** Minimises maintenance requirements, saving time and costs.

RS PRO 1-1/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-850

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. Its compact size ensures easy integration into existing systems.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.74 in

Mechanical Specifications

Length	1-1/4 in
Material	Sintered Bronze
Outside Diameter	2 in
