

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1-1/2 in Length:** Suitable for various industrial applications, offering versatility in design.
- **1.5 in Outside Diameter:** Ensures compatibility with standard housing dimensions, facilitating easy installation.
- **1.24 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing adaptability.

## RS PRO 1-1/2 in Sintered Bronze Plain Bearing

RS Stock No: 558-544

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low friction and high load capacity are essential, this bearing ensures smooth operation and durability.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.24 in

## Mechanical Specifications

Length	1-1/2 in
Material	Sintered Bronze
Outside Diameter	1.5 in
