

ECOSPILL MINI FOAM WALL BUND (DUCK POND) 57 LITRES

PRODUCT

The Ecospill (Mini Foam Wall Model) is a compact, portable solution for small leaks and spills (15-134.5-gallon capacity). Made of heavy-duty 22 oz. PVC, its 6" crush-resistant foam walls can be driven over yet pop back into place. Ideal for workshops, labs, and fuel transfers, it deploys instantly, folds for storage, and prevents fluid spread. Chemical-resistant and durable, it's perfect for vehicles, drums, and equipment maintenance.
