

Description

The 8MT-450 Mixing Tips are single use static mixer for 2-part low to medium viscosity cartridge systems. The mixer works using stationary elements inside a narrow cylindrical tube. This forces the materials to combine as it travels through the length of the mixer and provides a homogenous mix of hardener and resin that can be applied directly onto the targeted area.

Compatible Products

Part #	Pkg.
832C-450ML	Dual Cartridge
832B-450ML	Dual Cartridge
832HD-400ML	Dual Syringe
832HDA-400ML	Dual Cartridge
832FXT-400ML	Dual Cartridge
832BLV-450ML	Dual Cartridge

Features & Benefits

- Simply attach the tip to a compatible dual cartridge
- Narrow cylindrical tubes with a stationary mixing elements
- For 2-part low to medium viscosity cartridge systems
- The helical internal geometry provides a homogeneous and perfect mix of hardener and resin
- Eases precision application
- Single use

Specifications

Part #	# Of Elements	Element Width	Outlet Inner Diameter	Total Length
8MT-450	17	8 mm	3 mm	165 mm
