09/97 SC

9

- Protezioni con fusibile
- Schutz mit Sicherung
- Protections avec fusible
- Protection devices with fuse
- Protegido con fusible
- Beveiligingen met smeltzekering

Fusibile miniatura a cartuccia
tipo ritardato T2, 5H250V

Mittelträger Schmelzeinsatz
T2, 5H250V

Fusible cartouche temporisée
T2, 5H250V

Time-lag fuse link
T2, 5H250V

Cartucho fusible miniatura
retardado T2, 5H250V

Tijdvertraagde zekering
T2, 5H250V

ATTENZIONE : per sostituire i fusibili danneggiati
togliere sempre la tensione di rete (disinserire
l'interruttore generale).

10

ACHTUNG : bei Ersetzung von fehlerhaften
Sicherungen, immer die Netzspannung ausschalten
(Hauptschalter ausschalten).

ATTENTION : pour remplacer des fusibles défectueux
lever toujours la tension du réseau (ouvrir l'interrupteur
général).

ATTENTION : When replacing faulty fuses disconnect
always the supply voltage (open the main switch).

ATENCION : para sustituir fusibles dañados, quitar
siempre la tensión de red (desconectar el interruptor
general).

LET OP: bij vervanging van beschadigde smeltzekeringen
altijd de netspanning uitschakelen (hoofdschakelaar
uitschakelen)
