RS PRO 20 ml Contact Grease Syringe for Contacts, Thermoplastics

RS Stock No.: 566-730

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a range of contact cleaners and treatment products which have been designed to remove or prevent the build-up of oxides and other contaminants on the surface of switches, connectors and other electrical equipment. These types of cleaners can remove dirt, oil and grease from the equipment which ultimately improves the performance by preventing contact failure.
