

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance for long-lasting use
- **3/8 in Length:** Compact design suitable for tight spaces
- **0.56 in Outside Diameter:** Ensures compatibility with a range of housings
- **0.43 in Shaft Diameter:** Designed to fit standard shaft sizes for versatile application

RS PRO 3/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-099

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for use in high-wear environments. The bearing's compact size allows for easy integration into existing systems, providing reliable performance and extended service life.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.43 in

Mechanical Specifications

Length	3/8 in
Material	Sintered Bronze
Outside Diameter	0.56 in
