

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ideal for demanding applications
- **1 in Length:** Suitable for a wide range of mechanical assemblies
- **0.81 in Outside Diameter:** Ensures compatibility with standard housings and shafts
- **Plain Bearing Design:** Offers low friction and maintenance-free operation

RS PRO 1 in Sintered Bronze Plain Bearing, 0.81 in OD

RS Stock No: 528-118

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, offering reliable performance in various industrial applications. Designed for use in environments where low friction and high wear resistance are essential, this bearing ensures smooth operation and longevity.

General Specifications

Product Type	Plain Bearing
