

## FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing the need for frequent maintenance.
- **2 in Length:** Provides stability and support for shafts, enhancing the operational efficiency of machinery.
- **1.25 in Outside Diameter:** Ensures compatibility with a wide range of housings, making it versatile for different setups.
- **0.74 in Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration into existing systems.
- **Plain Bearing Design:** Simplifies installation and reduces the complexity of mechanical systems, lowering overall costs.

## RS PRO Sintered Bronze Plain Bearing, 2 in Length

RS Stock No: 528-812

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable performance in various industrial applications. Known for its durability and low maintenance, this bearing is ideal for reducing friction between moving parts, ensuring smooth operation and extended equipment life.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

## Mechanical Specifications

Length	2 in
Material	Sintered Bronze
Outside Diameter	1.25 in
