

FEATURES

- **Sintered Bronze Material:** Offers superior wear resistance and longevity, ensuring extended service life.
- **1-3/4 in Length:** Provides optimal support for shafts, enhancing stability and performance.
- **1 in Outside Diameter:** Ensures compatibility with a wide range of housings, facilitating easy integration.
- **0.74 in Shaft Diameter:** Designed to accommodate standard shaft sizes, ensuring a precise fit.
- **Low Friction:** Reduces energy consumption and heat generation, improving efficiency.
- **Self-Lubricating:** Minimises maintenance requirements, saving time and costs.

RS PRO 1-3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 558-520

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a robust plain bearing designed for smooth and efficient operation in various mechanical systems. This plain bearing is crafted from high-quality sintered bronze, providing excellent durability and reduced friction for enhanced performance. Ideal for applications requiring reliable support and alignment of rotating shafts.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	1-3/4 in
Material	Sintered Bronze
Outside Diameter	1 in
