

Features

- Helps minimise/reduce ultrasonic hotspots during the cleaning process
- Made from 304 stainless steel
- Allows correct propagation - by suspending the item away from the base of the ultrasonic bath you will allow for full propagation during the ultrasonic cleaning cycle
- Basket dimensions: L: 630mm x W: 420mm x H: 218mm
- Height including feet: 380mm

RS PRO 112 Litre Basket

RS Stock No.: 869000

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Make sure you protect both your cleaner and your possessions by using a basket. Placing items directly into the tank will cause wear from the vibration caused by the ultrasonic action, creating hotspots and damaging the base of the cleaner. Our baskets stand on rubber coated feet, minimising surface contact and ensuring safe cleaning.

Suspending items in a basket will also allow for proper propagation of the ultrasonic waves throughout the cleaner, ensuring a thorough, even clean.
