

FEATURES

- **Sintered Bronze Material:** Provides high strength and resistance to wear, ensuring long-lasting performance.
- **1-1/2 in Length:** Suitable for a wide range of applications, offering flexibility in design.
- **1.12 in Outside Diameter:** Ensures compatibility with standard housings, facilitating easy integration.
- **0.99 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing versatility.
- **Self-Lubricating Properties:** Reduces maintenance needs and operational costs by minimising the need for additional lubrication.

RS PRO 1-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-827

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient motion control. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The main benefit of this bearing is its ability to reduce friction and wear, ensuring smooth operation and extended lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.99 in

Mechanical Specifications

Length	1-1/2 in
Material	Sintered Bronze
Outside Diameter	1.12 in
