

## Datasheet

# RS Pro 2000mm Plain Stainless Steel Suspension System Wire Rope, 1.5mm Wire Diameter

RS Stock No: **297-0715**

## Product Details

RS Pro suspension system wire rope has 1.5 mm wire diameter and is 2000 m long. It has a plain finish and made from stainless steel. This is the basic component in the suspension system. It provides the adjustment mechanism for the wires which consists of spring loaded steel ball bearings which grip the wires in one direction of travel only. A hexagonal, threaded end stop, which can be fitted to one end of a wire to act as a non-adjustable end stop. The stainless steel wire is supplied with ferrule stop ends.

## Features and Benefits

- System consisting of stainless steel wire and grippers that use a patented quick and easy adjustment mechanism
- Suspension system provides the adjustment mechanism for the wires which consists of spring loaded steel ball bearings which grip the wires in one direction of travel
- Stainless Steel wires supplied with ferrule stop ends
