## Product Details

### **16501 smartLUX DIGITAL Magnifier**

Eschenbach Optik has introduced the latest generation of its highly successful 'smartLUX DIGITAL'. Simplicity was key to the development of the smartLUX DIGITAL magnifier. Using only 3 buttons, its intuitive design, allows the user to select from 4 magnifications (5x, 7x, 9x or 12x), cycle through 5 different viewing modes and capture and store up to 20 images.

Eschenbach's smartLUX DIGITAL features a generous 5", anti-reflective screen, allowing the user a great viewing experience in virtually any environment and weighing in at only 220g is the ideal companion either at home or away

- 1.7x to 12x magnification
- Extra-large field of view due to non-reflective 5" LCD and high magnification range.
- Makes reading simple as camera is centrally positioned under the display.
- Extra writing position for writing or working under the display.
- Easy to use due to large operating buttons which are easy to see and tactile.
