

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **36 mm Length:** Suitable for a variety of shaft lengths, providing flexibility in design.
- **42.06 mm Outside Diameter:** Ensures compatibility with standard housing sizes for easy integration.
- **35.97 mm Shaft Diameter:** Provides a precise fit for shafts, enhancing performance and reducing vibration.

RS PRO Sintered Bronze Plain Bearing, 36 mm Length

RS Stock No: 528-024

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery and equipment where low friction and durability are essential, this bearing provides a cost-effective solution for reducing wear and extending the lifespan of components.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	35.97 mm

Mechanical Specifications

Length	36 mm
Material	Sintered Bronze
Outside Diameter	42.06 mm
