Overview

Ragni Brick trowel range features both Philadelphia and London patten trowels, with both 10" and 11" variations available to suit the user's preference. The blades are taper ground, tempered and hardened for durability, producing a flexible blade that is well balanced. We don't use stickers on any of our trowels, all blades are laser engraved for a professional finish. The trowels feature a soft-grip 2 component handle with finger guard for comfort and the end cap is ideal for tapping bricks. They represent outstanding value for money, are long lasting and perfectly balanced.
