

L-Keys for Hexagon Socket Screws

EAN:	4013288183750	Size:	178x76x25 mm
Part number:	05022534001	Weight:	205 g
Article number:	950/7 Hex-Plus Multicolour Magnet 1	Country of origin:	CZ
		Customs tariff number:	82054000

- L-keys for hexagonal socket screws
- Hex-Plus allows socket head screws to live longer
- L-keys are quickly to hand thanks to their size markings
- Wear-resistant size marking
- Wear-resistant clip material for enhanced durability

L-keys with thermoplastic sleeve (SPKL) out of easy-to-grip circular material. The sleeve ensures that work is pleasant and easy on the fingers even at low temperatures. All L-keys are quickly to hand thanks to their colour coding and size markings. The wear-resistant clip material ensures secure storage of the L-keys as well as simple removal. For hexagonal socket screws.

L-Keys for Hexagon Socket Screws

Hex-Plus

We questioned the classic L-key design, since all too often the screw head recess is rounded out, meaning screws can no longer be tightened or loosened – and so the user finds the L-key slipping out of the recess. Wera Hex-Plus tools have a larger contact surface in the screw head. The notching effects are reduced and thereby the deformation of the screws. At the same time, as much as 20 % more torque can be applied.

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Ball tip

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, "around-the-corner" screwdriving jobs.

Magnetiser/Demagnetiser

For recessed screws, it's often advantageous for the screw to be held on the L-key by magnetic force. The Wera clips with magnetiser/demagnetiser enable a magnetisation/demagnetisation of L-keys in a flash.

Magnetising

Demagnetising

Secure hold and easy removal

The wear-resistant clip material ensures that the L-keys are securely held yet are easy to remove.

"Take it easy" tool finder system

"Take it easy" tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklus drive sockets), external hex drive screws and nuts (Joker wrenches, Zyklus sockets and Zyklus bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklus bit sockets).
