

Meet IPC Standards with Weller

Production within the electronics, medical technology and aerospace industries is moving faster as components become smaller, more sensitive, complex and more powerful. The soldering industry is not different. With the Weller RT MS tips you meet these increasing demands.

The Weller active MS (military standard) soldering tips are fully compliant with IPC industry standards (IPC - TM-650 2.5.33 Measurement of Electrical Overstress from Soldering Hand Tools) and are also MIL-SPEC compliant .

The RT Lines provide maximum protection to the printed circuit board and the component you're soldering. With the MS tips you achieve the best results and keep your operation costs as low as possible.

MIL-SPEC

- Use MS soldering tools (WXPP MS, WXMP MS, WXUP MS, WXMT MS) only with MS soldering tips (RTP MS, RTM MS, RTU MS, RTW MS)
- MS Tools and Tips must always be used together.

Difference

- The handles and the tips are isolated between Heating Element and Grounding.
- 4 Pin connector with extra Pin for Grounding
