

Features

- Compatible with most products transported in IBCs.
- Black or natural, 20% Glass-coupled Polypropylene.
- Excellent chemical resistance.
- Lightweight, cost effective.
- Common buttress threads S60x6
- By using buttress female threaded adaptors, it is possible to convert almost any IBC container quickly into either a cam coupling system, a threaded end or a hosetail

IBCs Fittings / Hose Connectors

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

RS PRO Fittings for IBCs

Our primary goals are to provide the end user with an off-load system which is quick, secure, easy to maintain, compatible with most products transported in IBCs, integrates easily with existing equipment and is cost effective.

The excellent chemical resistance and light weight of Polypropylene combined with all moving parts made of Stainless Steel makes this off-load system one of the most cost-effective solutions. Purposely designed fittings to ensure ease of use and secure operation on the off-loading of IBCs whose valves often use buttress threads

Rigid composite containers moulded from Polyethylene and in a cage. Intermediate bulk containers or IBCs use the buttress thread as the standard output on the bottle or the valve. This type of buttress thread is based on the German DIN standard DIN 6131:1989.

- Compatible with most products transported in IBCs.
- Black or natural, 20% Glass-coupled Polypropylene.
- Excellent chemical resistance.
- Lightweight, cost effective.
- Common buttress threads S60x6
- 'Step-down' hose inserts

Applications

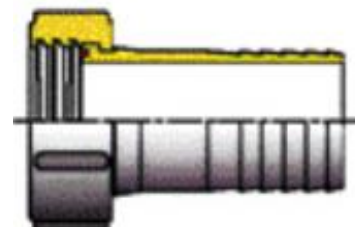

- By using buttress Female threaded adaptors, you can convert your IBC valve quickly, to either a cam coupling system, threaded ends or direct to a hose of varying size normally in one adaptor
- IBC Containers
- Chemical, industrial, pharmaceutical
- 'Step-down' hose inserts
- Bulk liquid or powdered substances such as food & drink, chemicals, pharmaceuticals & solvents

General Specifications

Features	IBC Adaptor
Hose Inner Diameter	See below table for specifications
Thread Size	See below table for specifications
Thread Standard	See below table for specifications
Hose Connector Type	IBC Adaptor
Body Material	PP (Polypropylene)
Connector Gender	Male
Valved	No
Coupling Connector Direction	Straight
Maximum Working Pressure	7 bar

Specifications

S60x6 Female Buttress Thread to Serrated Hose Tail.

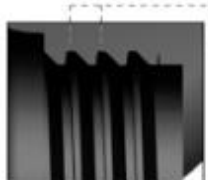

RS PRO Article	Outlet Thread Size / Standard	Inlet Connection
536-3716	1in (25mm) Hosetail	S60x6 Female Buttress
536-3722	1.25 in (32mm) Hosetail	S60x6 Female Buttress
536-3738	1-1/2 in (38mm) Hosetail	S60x6 Female Buttress
536-3744	2 in (50mm) Hosetail	S60x6 Female Buttress

Approvals

Declarations	MFR Declaration of Conformity
Standards Met	DIN standard DIN6131:1989
