

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance for long-lasting performance
- **1 Inch Outside Diameter:** Ensures compatibility with a variety of shaft sizes
- **7/8 Inch Length:** Offers a compact design for space-constrained applications
- **Low Friction:** Enhances efficiency and reduces energy consumption
- **Self-Lubricating:** Minimises maintenance requirements and downtime

RS PRO 7/8 in Sintered Bronze Plain Bearing, 1 in OD

RS Stock No: 558-514

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for supporting rotating or sliding shafts. With a 7/8 inch length and 1 inch outside diameter, this bearing is suitable for a range of industrial uses.
