# RS Pro Slim LED Spotlight 50W White finish

RS Stock No: 1363565  
Cool Daylight

RS Stock No: 1363566  
Warm White Light

## Specifications :

This spotlight is a new market benchmark because of its extra-slim design and its high lighting capabilities. It is built in an aluminium frame barely 44.5mm thick and our teams have succeeded in delivering a system with an impressive lighting power up to 4500 lumens. A feat achieved by the use of SMD5730 new generation LED's.

This new reference offers an outstanding light efficiency while restricting heat development. Moreover the back of the frame has been designed for perfect venting of the electronics.

Right from switching it on, you will notice that no compromise has been accepted in terms of lighting quality. Its glass is anti-glare for enhanced comfort. Available in Cool Daylight (6000K) or Warm White (3500K) it can be completed with a 40cm white offset arm, as an option (1363567).

## Features :

- Power supply consumption: 50W
- Lighting power:
- Cool Daylight. : 4500 lumens
- Warm White : 4000 lumens
- Lighting colour: cold white 6000K
- Lighting colour: warm white 3500K
- Dimension (h x l x p):  
284 x 298 x 44.5 mm
