

Ceracore UTC30 Accessories

Flexible Process Connection Adapters for Ceracore UTC30 Pressure Transducer

To simplify the integration of UTC30 pressure transducer into a wide range of applications, Endress+Hauser Sensors & Components offers a selection of robust process connection adapters for **Ceracore UTC30 M10x1 capsule interface**. These adapters enable compatibility with common industrial pipe thread standards.

Available Adapter Variants

Order Number	Configuration	Description
71364631	M10x1 → G 1/2"	Adapter for connection to G1/2" process ports
71364632	M10x1 → G 1/4"	Adapter for connection to G1/4" process ports
71364633	M10x1 → 1/8" MNPT	Adapter for connection to 1/8" male NPT process ports
71364635	M10x1 → 1/4" MNPT	Adapter for connection to 1/4" male NPT process ports
71364636	M10x1 → 1/2" MNPT	Adapter for connection to 1/2" male NPT process ports

The adapters are made of 316L.
