

Standard 1/2" ratchet

Description:

- Durable ratchet head mechanism with closed head design: prevents dust and particles to damage the head.
- Easily accessible forward reverse switch, even usable with greasy hands.
- Accessible nipple for convenient greasing of the head and gears.
- Insulating rubber sleeve covering a lightweight aluminium housing.
- Speed easily regulated with a screwdriver.
- Rear exhaust drives the air away from the workplace.
- Feather teasing trigger for optimal speed regulation.
- Socket ball retainer for safety.
- 51 mm slim profile head.
