

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **3/4 in Length:** Suitable for a wide range of applications, offering versatility in installation.
- **0.81 in Outside Diameter:** Ensures compatibility with standard housings, facilitating easy integration.
- **0.62 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing usability.

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-200

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring low friction and high wear resistance. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing is ideal for supporting rotating shafts and reducing friction between moving parts.
