

Key Features:

- Vibration, sound, and visible alarms that clearly detect the presence of AC voltage and accurately differentiate between live wires and neutral or ground
- Bright, LED flashlight and tip light that allows you to see clearly in poor lighting conditions
- Designed to comply with the latest UL1436 Non-contact Voltage Detector safety regulation

Main Applications:

- Safely inspecting to see if wires or outlets are live before working
- Troubleshooting electrical circuits, and breakers
- Safety checks in dark, tight, or noisy environments
