

## FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **Outer Diameter of 38.06 mm:** Ensures compatibility with a wide range of housings and applications.
- **Shaft Diameter of 29.98 mm:** Provides a precise fit for optimal performance and reduced vibration.
- **Length of 20 mm:** Suitable for compact installations where space is limited.

**RS PRO Sintered Bronze Plain Bearing, 38.06 mm Outer Diameter**

RS Stock No: 518-193

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient performance in rotational and sliding movements. Its robust construction makes it ideal for use in environments where durability and low maintenance are essential.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	29.98 mm

## Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	38.06 mm
